Profile

I'm a front-end developer and recent graduate in Electronics and Computer Engineering, with a strong passion for building engaging and responsive user interfaces. I have solid skills in HTML, CSS, JavaScript, and React.js, with basic knowledge of frameworks like Angular and Vue.js. I'm currently seeking an opportunity to contribute to a creative development team, grow my technical skills, and build real-world applications.

Education

2020 – 2025 **Bachelor of Engineering (Electronics and Computer Engineering)**
Higher Institute of Engineering and Technology
Focused on computer engineering and software development. Gained hands-on experience through personal projects using JavaScript, React.js, and Node.js.

Professional Experience

08/2024 – 09/2025 **Front-End Developer (Graduation Project)**
Higher Institute of Engineering and Technology
Tanta, Egypt
Developed a responsive user interface for the graduation project using HTML, CSS, JavaScript, and Tailwind CSS.

08/2024 – 09/2024 **Course Trainee – OOP & Flutter Basics**
Tech Academy
Tanta, Egypt
Learned the basics of Dart, object-oriented programming, and an introduction to mobile app development using Flutter.

Skills

C	C++
Dart	DataStructure
OOP	HTML
CSS	Bootstrap
Tailwind Css	JavaScript
JQuery	React JS
Git/GitHub	

Projects

Front-End Developer (Personal Project)
Wagatoha – Website Collection Showcase
Built a responsive website inspired by Wagatoha that displays a collection of useful sites for different purposes using HTML, CSS, and JavaScript.

Front-End Developer (Personal Project)

Raya Shop – E-commerce Website Clone

Created a front-end version of the RAYA store using HTML, CSS, and JavaScript to simulate a basic e-commerce layout and user experience

Front-End Developer (Personal Project)

Visual Studio Code Website Clone

Built a responsive landing page inspired by the official VS Code website using HTML, CSS, Bootstrap, and JavaScript to showcase editor features and improve UI skills

Front-End Developer (Personal Project)

Bein Sport – Sports News & Matches Website Clone

Developed a front-end clone of the Bein Sport website using HTML, CSS, Bootstrap, and JavaScript. The site displays sports

Front-End Developer (Personal Project)

Estate Project

Built a real estate landing page with React and Tailwind CSS, featuring property listings, about section, and a contact form.

Front-End Developer (Personal Project)

G-Store - E-commerce Web Site

E-commerce website built with React and Tailwind CSS. Used API to fetch products, added filtering, dynamic product pages, and full shopping cart functionality.
